

Dear Sir/Ma'am,

I am writing to express my strong interest in the position of Health Information Management Professional 1 at Health PEI (QEH), as advertised. I heard about the vacancy through my wife as she is an RN working at QEH and she passed me this information to apply, and I am excited for this role. With my background in the retail industry as a planner and my proficiency in programming languages like Python and SQL, I am confident in my ability to quickly adapt to an administrative environment and contribute effectively to the coding and abstracting of patient information as well as the maintenance of internal information databases.

Having reviewed the job description and responsibilities for the position, I am particularly drawn to the opportunity to utilize my coding and abstracting skills using the ICD-10-CA/CCI coding system. While I may not have direct experience in the healthcare industry, I am a fast learner and possess a strong attention to detail, both of which are essential for accurately coding and abstracting patient information from medical records. I am confident in my ability to quickly grasp the necessary coding guidelines and contribute effectively to this aspect of the role.

Furthermore, my experience in the retail industry as a planner has honed my organizational and analytical skills, which are essential for performing coding audits and ensuring compliance with policies and guidelines. I am accustomed to managing large volumes of information, working under deadlines, and paying meticulous attention to detail. These transferable skills will enable me to excel in maintaining and regulating medical records in conformance with established standards.

Moreover, my knowledge of programming languages such as Python and SQL enhances my ability to contribute to the enhancement and maintenance of internal information databases. I possess a strong technical aptitude and have successfully applied programming skills to automate processes and streamline data management in my previous roles. I am confident that this expertise can be leveraged to optimize the internal information databases at Health PEI and contribute to the efficiency and accuracy of data retrieval and analysis.

I am excited about the opportunity to join Health PEI and contribute to the vital work of Health Information Management. My adaptability, attention to detail, and technical skills make me a strong candidate for this position. I am eager to bring my enthusiasm and commitment to excellence to your organization.

Thank you for reading my letter as this job is highly important for me and I plan to work with utmost dedication if hired. I would welcome the opportunity to further discuss how my skills and experience align with the requirements of the Health Information Management Professional 1 position. I look forward to the possibility of an interview and the chance to contribute to the success of Health PEI (QEH).

Sincerely,

Chandan Thapa
